### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to Applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Applicant's representative Mr. Robert L. Troike, Reg. No. 24,183 on 11/09/05.

The application has been amended as follows:

Claims 21-24 have been cancelled.

2. The following is an examiner's statement of reasons for allowance: the allowability resides in the overall structure and method as recited in independent claims 13 and 1, respectively, and at least in part, because:

Claim 1 recites: "a continuous electrically inactive conductor extending in one or more heat dissipating layers of a dielectric body dielectrically spaced from and along a heat dissipating substrate"; and,

Claim 13 recites: "dielectric material separating the inactive conductor from said heat generating substrate".

The aforementioned limitations in combination with all remaining limitations of the respective independent claims, are believed to render said independent claims 1 and 13, and all claims dependent therefrom (Claims 2-7, 9-12, and 14-18) patentable over the art of record.

None of the references of record, either taken alone or in combination, is believed to render the present invention unpatentable as claimed.

3. Any comments considered necessary by Applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Anatoly Vortman whose telephone number is 571-272-2047. The examiner can normally be reached on Monday-Friday, between 10:00 am and 6:30 pm..
